## CHRISTINA'S CHOICE

You all have asked and we have delivered!

Our team has been working with HGTV Star, Christina Hall to offer a residential-focused sampling that suits each of our customer's styles.

The Christina's Choice is inspired by our top-selling HempWood® Natural Flooring options, Ice and Natural. In addition to our top-selling options, customers have the choice to select from our Custom Color Collection.

"We wanted to provide our customers the chance to select a sustainable flooring option that fits their style," CEO Greg Wilson said.
