

# HEMPWOOD<sup>®</sup>

## GAZETTE

## GREENBUILD

The Greenbuild International Conference + Expo brings together all the people, ideas, and innovations shaping the green building and sustainability industry.

As the largest annual event for green building professionals worldwide, this expo educates and sources cutting-edge solutions to improve resilience, sustainability, and quality of life in our buildings, cities, and communities.

This year HempWood will be exhibiting at booth #1231. The event will occur from November 1–3 in San Francisco at the Moscone Center.

## TECHNOLOGY DESIGNER

What do Kermit the Frog and HempWood have in common? In Technology Designer Magazine, Sean O'Keefe highlights the similarities that HempWood and Kermit share; specifically, being green. For the full article, go to [www.technologydesigner.com](http://www.technologydesigner.com).

## CUSTOMER APPRECIATION

This past week our team traveled to Salt Lake City, Utah for Customer Appreciation Day at National Wood. National Wood proudly represents some of the most highly respected hardwood lumber mills and plywood manufacturers in North America, including HempWood. If you are in the Salt Lake area, go check out HempWood at their storefront.

## CO<sub>2</sub> NEGATIVE SCHOOL

Warren County Public Schools are working towards carbon negativity. Located in Bowling Green, Kentucky, Greenwood High School will be the first school to implement HempWood Natural Flooring, which is the only carbon-negative hardwood flooring made in America. As a Kentucky-based school and company, HempWood is excited about the collaboration.
